## Hire Companies – Wheelchair Accessible Vehicles & Disability Equipment

Disability equipment includes standers, walkers, wheelchairs, toilet/commodos, car seats (for plane and car travel) etc

We recommend booking vehicles and equipment well in advance. Some companies will bring the vehicle to the airport/train station to you and will allow you to drop off here at the end of your stay.

Always check insurance and if there is a back up vehicle/equipment item in case of breakdown. Check if vehicle has ramp vs hoist and ask if company is able to email photos of the vehicle.

We have not listed all taxi contacts, but taxis are an option in most states, with some states offering concessions and taxi vouchers. Check with department of transport in state you are travelling to as these often take a month to process.

You can also contact the Independent Living Centre in the State you will travel to as they may have a more extensive listings of hire vehicles and equipment suppliers.
